To Whom It May Concern:

Dear Sir,

I just wanted to share a quick note and let you know my experience of using the services of M/s. Turbo Mot India Private Limited for repair and maintenance of back-up power generator for my business Easan Print.

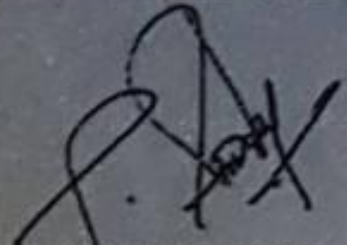

We had got used the having some problem or the other with our generator till it completely stopped working one day. That is when we were referred to Mr. Punithan. I'm glad I decided to entrust the work with him.

While others were educating me that replacement components are not available for this generator and guiding me into buying a new generator. He solved the problem in quick time. His team replaced what need to be replaced without any difficulty, did the necessary service and got the generator working fine in quick time. 5 months since, the generator is performing really well, and I have not had any issue being reported to me from my staff.

I appreciate the thorough professionalism of the team from M/s. Turbo Mot India Private Limited and Mr. Punithan in particular for the personal attention he extended.

Thank you.
